## DETAILED ACTION

## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-24 and 27, drawn to a compound of claimed general formula I, a prodrug and pharmaceutical composition thereof.

Group II, claim(s) 25-26 and 28, drawn to a DNA molecule encoding a compound of general formula I, and a vector comprising said DNA.

Group III, claim(s) 31, drawn to a method of inhibiting formation of nitric oxidized and/or nitrite.

Group IV, claim(s) 32, drawn to for a method of immunomodulation.

Group V, claim(s) 33, drawn to a method of treating contact hypersensitivity.

Group VI, claim(s) 34 and 35, drawn to a method of treating-sensitization-by a hapten.

Group VII, claim(s) 36, drawn to a method of treating the formation of oedema.

Group VIII, claim(s) 37 and 57, drawn to a method of treating inflammation of blood vessels or vasculitis.

Group IX, claim(s) 38, drawn to a method of normalizing white blood cell counts.

Group X, claim(s) 39, drawn to a method for stimulating cAMP.

Group XI, claim(s) 40-41, 44, drawn to a method of treating a disease or disorder of inflammation or an inflammatory like condition.

Group XII, claim(s) 42, drawn to a method of treating inflammation of the skin.

Application/Control Number: 09/674,733

Art Unit: 1654

Group XIII, claim(s) 43, drawn to a method of treating inflammatory disease in the abdomen.

Group XIV, claim(s) 45, drawn to a method of treating the peripheral and central nervous system related to inflammation.

Group XV, claim(s) 46-47, drawn to a method of treating a disease or condition of the eye and tear glands related to inflammation.

Group XVI, claim(s) 48, drawn to a method of treating the inflammation of the nose.

Group XVII, claim(s) 49, drawn to a method of treating inflammation in the upper alimentary canal.

Group XVIII, claim(s) 50, drawn to a method of treating inflammation in the lung.

Group XIX, claim(s) 51, drawn to a method of treating inflammation related to the heart.

Group XX, claim(s) 52, drawn to a method of treating inflammation in the lungs.

Group XXI, claim(s) 53, drawn to a method of treating inflammation of the pancreas.

Group XXII, claim(s) 54, drawn to a method of treating inflammation of the thyreoditis.

Group XXIII, claim(s) 55, drawn to a method of treating inflammation of the kidney.

Group XXIV, claim(s) 56, drawn to a method of treating inflammation of the joints.

Group XXV, claim(s) 58, drawn to a method of treating arteriosclerosis.

Group XXVI, claim(s) 59, drawn to a method of treating drug induced disorders of the blood and lymphoid system.

Group XXVII, claim(s) 60, drawn to a method of treating fast allergic disorders (Type I allergy)

Group XXVIII, claim(s) 61, drawn to a method of treating inflammation associated with infectious diseases or conditions.

Group XXIX, claim(s) 62, drawn to a method of treating tissue trauma and tissue injury.

Group XXX, claim(s) 63, drawn to a method for stimulating pigment formation in epidermal cells.

Application/Control Number: 09/674,733

Art Unit: 1654

Group XXXI, claim(s) 64, drawn to a method for inhibiting pigment formation in cells of the skin.

- 2. Groups XI and XXVIII-XXIX are generic to a plurality of disclosed patentably distinct species comprising those species as claimed within the respective claims of each group. If Applicants elect either of the Groups XI, XXVIII or XXIX, Applicant is required to elect a single disclosed species from that group, even though this requirement is traversed.
- The inventions listed as Groups I-XXXI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the compounds of the claimed general formula I lack a special technical feature that links all groups under a single general inventive concept. When the Markush grouping is for alternatives of chemical compounds, the shall be regarded as being of similar nature where the following criteria are fulfilled: 1) a common property or activity, and 2) a common structure present... However, as is indicated by Claim 1 of Group I, the compound alternatives have different properties and activities as described in Claim 1 a)-d) of Group I.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to B. Dell Chism whose telephone number is 703-306-5815. The examiner can normally be reached on 7:30 AM - 4:30 PM, Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 703-306-3220. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4242 for regular communications and 703-308-4242 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
